Re: Voluntary Cleanup Program (VCP) Application for the J Parcel, Exide
Technologies, Frisco, Collin County, Texas; VCP No. 2541

Dear Mr. Love:

The Texas Commission on Environmental Quality (TCEQ) has received your VCP application submitted pursuant to §361.604 of the Texas Solid Waste Disposal Act (SWDA) for assistance and review of site investigation and cleanup activities for the above referenced site. After careful review, the application is determined to be eligible for the VCP. Our statement of eligibility is based on our understanding that no part of the permitted area is included in the area proposed for VCP. The VCP project manager for your site is Mr. Gary Beyer of the VCP-CA Section.

In addition, a voluntary party must enter into a voluntary cleanup agreement that sets forth the terms and conditions of the evaluation of the reports and the implementation of work plans prior to any assistance and review by the TCEQ. Please find enclosed a VCP Agreement. Please contact the VCP project manager for your site to negotiate the terms of the Agreement prior to submittal.

Please note that §361.606(d) of the SWDA states that if an agreement is not reached between a person desiring to participate in the VCP and the Executive Director 30 days after good faith negotiations have begun (i.e., the date of this letter), either party may withdraw from the negotiations and TCEQ will retain the person's application fee.

Applicants initiating a voluntary cleanup under the Texas Risk Reduction Program (TRRP) should first conduct an affected property assessment pursuant to 30 Texas Administrative Code (TAC) §§350.51-350.55, Subchapter C. Reporting requirements under TRRP may be found in 30 TAC §§350.91-350.96, Subchapter E. Please review the TRRP requirements for the Affected Property Assessment Report (APAR) pursuant to 30 TAC §350.91. The TCEQ's report form for the APAR may be downloaded from the internet at <http://www.tceq.texas.gov/remediation/trrp/guidance.html> (TRRP-12) or may be obtained from us by mail at your request.
